SOME OF THE TOP UNIVERSITIES WHERE OUR STUDENTS ARE ENROLLED

EXPERIENTIAL LEARNING AT MIS

MIS is a school that believes in learning through experiences and exploration. We believe that important life skills can be developed experientially while having fun and stepping out of our comfort zones at the same time. Experiential learning is an engaged learning process where students "learn by doing" and by reflecting on their experiences.

Our teachers very thoughtfully design various activities that encourage students to think critically, acquire new skills, share their feelings and learn to work collaboratively. Himalayan trekking camps, white water rafting camps, gurudwara seva, cleanliness drives, Nukad Nataks to spread awareness, making bags, candles and cookies to raise funds are some of the many experiences we enjoy at MIS that are impactful and most liked by our students.
